## HOW AM I GREEN?

I made the commitment in 2009 to stop driving my car to work, and to use alternative modes of transportation which are so readily available here in the Bay Area. I began to commute to work, and to most of the WCAB locations in Northern California by bicycle, BART, CalTrain, and Amtrak. Once you try you find you can get where you need to be without dependence on a personal vehicle, and in 2010 I sold my car so that my wife and I are a one car family. This is a small step, but one that I hope will catch on and become a regular part of more peoples lives.
